

SomnoFlo®

Low-Flow Electronic Vaporizer

No more using human amounts of anesthetic for a mouse!

INTRODUCING

A compact, standalone vaporizer that uses either ambient air with an internal air pump or compressed gas. It delivers only the anesthetic required by the animal according to its weight with flows down to 0.05 LPM.

- Provides high precision and accuracy with flow rates as low as 50mL/min.
- Operates using ambient air or compressed gas.
- Maintenance free, requires no annual certification.

SomnoFlo Electronic Vaporizer \$4,975
SomnoFlo Starter Kit for Mice or Rats \$375, \$575
